Super Fun Facts

Originally our building was built in the 1890's as a production facility for stagecoaches and horse carriages!

The ceiling is original timbers reinforced by steel we added to support the amount of equipment and weight on the roof. At the highest point is 32 feet tall!

Before Earl Giles, this space was an auction house for heavy equipment and farm machinery.

Our space occupies 18,000 square feet. All Earl Giles companies live under this roof. Distillery produces all spirits & liqueurs. Bottling Company produces all non-alcoholic mixtures, canning operation for all beverages, event space, apothecary flavor lab, and of course the 225-seat restaurant.
